DETAILED ACTION

1. Claims 4, 6, 7, 12-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 7/13/06.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 3. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Garcia et al. (U.S. Patent No. 6,460,781).

Garcia et al. discloses a perfume dispenser comprising a squeezable bag 11 with a storage chamber 13, a guiding channel 14/15, a dispensing element 19, a compressing force F for pressurizing the content in the chamber (see column 5, lines 20+), a sealing chamber 14 with a releasing opening 16 and a detachable sealer 171.

Claim Rejections - 35 USC § 103

- 4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Art Unit: 3752

5. Claim 5, 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Garcia et al. (U.S. Patent No. 6,460,781) in view of Hawkins et al.

Garcia et al. teaches all the limitations of the claims except for an s shaped guiding channel. However, Hawkins et al. discloses a squeezable bag with a storage chamber 12 and an s shaped guiding channel. Therefore, it would have been obvious to one having ordinary skill in the art to have provided the device of Garcia et al. with an s shaped guiding channel as suggested by Hawkins et al. Doing so would provide an effective squeezable bag (see column 5, lines 4+).

Allowable Subject Matter

6. Claims 9-11, 21-26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

- 7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents are cited to show the art with respect to a squeezable bag dispenser: Nakoneczny et al., Fry, and Garcia et al.
- 8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dinh Q. Nguyen whose telephone number is 571-272-4907. The examiner can normally be reached on Monday-Thursday 6:00-4:30.
